

# 2021nanadu power solar container

## Overview

---

The Nanadu Power 20-foot container combines lithium-ion batteries, thermal management, and AI-driven analytics. One mining company in Australia reported a 50% reduction in diesel generator use after installing three units. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. And guess what?

It's doing so while looking like a sleek, high-tech shipping container. Below is a narrative description of how a solar-powered shipping container is revolutionising the face of access to global energy, off-grid energy, grid backup, and clean development for applications ranging from European building sites to African communities and the rest of the globe.
