

Address of the electric vehicle solar container base

Overview

The AFDC's interactive Alternative Fueling Station Locator (below) displays public charging stations, or electric vehicle supply equipment (EVSE), installed throughout New York State. Selecting an individual station displays the name of the charging host, address, and contact information. The Terminal One solar array will be the largest in New York City and the largest at any airport terminal in the country. It is a versatile energy infrastructure product with a sleek aesthetic design that fits in the size of a standard parking space. We have installed over 1,600 charging ports across over 1,025 charging stations, including over 180 fast-charging stations, at City garages and parking locations around the city. Additionally, Mayor Adams and NYC Department of Citywide Administrative Services (DCAS) Commissioner Dawn M.
