

Application for battery replacement at solar container station

Overview

You can search for approved developers online to support you through the application and installment process by visiting our Battery Marketplace or the statewide SGIP Approved Vendor List. Your energy storage system will charge either from the grid or solar while it is not in. So-called "storage ready" systems are already equipped with an inverter that can easily direct excess power into a battery. To obtain complete information for your project, please contact our friendly staff in person or over the phone at Planning (626) 384-5450 or Building & Safety (626) 384-5460, Business hours (Monday - Thursday from 7:00 a. Increased solar adoption has inundated many jurisdictions with permit applications and inspection requests. (1) SolarAPP+: If you are a licensed B-General, C-10 Electrical, or C-46 Solar Photovoltaic contractor who is registered and certified by SolarAPP+, you qualify for expedited processing through SolarAPP+.
