Overview

Since its official launch held in Singapore in 2011, APVIA has devoted itself to promoting the development of PV industry worldwide, especially in Asia, including China, India, as well as those fast-growing solar markets in Southeast and West Asia. The Asian Photovoltaic Industry Association (APVIA) is a non-profit organization consisted of PV enterprises, scientific & research institutes and other relevant industrial organizations in Asian countries and regions under the principle of voluntary enrollment. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. The container is equipped with foldable high-efficiency solar panels, holding 168-336 panels that deliver 50-168 kWp of power.
