

# Award speech of solar container innovation competition

## Overview

---

gium)" and "Su mmodate 3,000 people to live te Design Compet tion"s Class of Container Facelift" compet d admin. The annual SolarPACES Awards honor the personal engagement of individuals and institutions that significantly contribute to the deployment of CSP technology. However, for this competition the jury chose to focus on those submissions that offered a realistic implementation of a novel solution; those that did not compromise the durability and functionality of the containers in order to redefine their aesthetics. The Construction Container Integrated Photovoltaics project was a submission from Saule Technologies in Poland, and was chosen as the competition winner for its modern approach that used a high tech solution to improve both the aesthetics and the functional performance of the. It's a moment to acknowledge those who have contributed to your success, reflect on your journey, and inspire others who may follow in your footsteps. Department of Energy (DOE) announced the 10 finalist teams who were each awarded \$100,000 in cash and \$75,000 in technical support vouchers for their innovative ideas for.
