

Belgrade lithium power storage

Overview

The city's new 140MW photovoltaic + storage project isn't just another solar farm - it's Serbia's first large-scale marriage of solar generation with lithium-ion battery storage. Think of it as a giant power bank for the capital, storing sunshine for cloudy days and moonlit nights. With green groups set to mass for a protest on the streets of Belgrade this weekend over the planned opening of a Lithium mine, what is it about this controversial mineral that has Europeans keen to acquire supplies?

Green groups in Serbia have called what they hope will be a mass protest in. One of the fields of joint work is sustainable energy and diversification and support for a future power plant in the region that would use lithium ion electricity storage. This article explores the scope, technologies, and economic impact of these initiatives, highlighting opportunities for global stakeholders like EK SOLA.
