

California electric solar container company

Overview

California Solar Electric services residential and commercial customers providing solar and energy storage turn-key installation and maintenance services. We provide custom turn-key installations for residential and commercial projects to provide opportunities for our customers to save thousands while also giving them options to have their system provide a reliable source of backup electricity during outages when paired with a battery. From sleek rooftop installs, ground mounts to full energy backup systems with Tesla Powerwalls and Enphase, every project is handled by our experienced team members. Our dedicated team is committed to helping homeowners like you to reap the full benefits of this powerful energy solution. The RHB meets the demanding needs of industry for safe, simple, low-cost energy by economically replacing fossil fuel-fired furnaces and boilers—unlocking energy prices for global industries that are both more. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar.
