

China network solar container project bid

Overview

On May 7, the winning bid results for the procurement of double-glass solar PV modules for Sub-project 1 (the PV power generation project on the retaining wall in the front area of Beiyuan Group) and Sub. (PowerChina) has launched a 31 GW solar module tender for 2026 projects, split across n-type tunnel oxide passivated contact (TOPCon), heterojunction (HJT) and back-contact (BC) technologies as part of a wider 97 GW renewables and grid equipment program. POWERCHINA is locking in prices for its solar module and inverter requirements for 2025.
