

China solar container industry investment group factory operation

Overview

Located eight kilometers offshore from Dongying of Shandong, the project marks a significant milestone for both China and the global offshore solar industry, it said. The one gigawatt project uses cutting-edge steel truss platform technology to install 2,934 solar . The world's first gigawatt-scale offshore solar power project was successfully connected to the grid and has begun power generation on Wednesday, its operator CHN Energy Investment Group (CHN Energy) said. These modular units combine photovoltaic panels with battery storage, creating self-sufficient workspaces. This 1 GW floating solar farm in China's Shandong province is now grid-connected.
