

Classification standards for new solar container cabins

Overview

This comprehensive guide will provide a clear roadmap to the legal landscape surrounding shipping container homes, helping you understand the necessary permits, local zoning laws, and the steps required to ensure your project is compliant and successful. Modular homes are constructed to the same state and local building codes as site-built. The International Residential Code (IRC) 2021 and International Building Code (IBC) 2021 establish standards that help ensure structural integrity, life safety, and habitability. Understanding these codes is essential for successful permit approval and construction. What is a Suretank A60 engineered cabin?
