

# Does muscle also count as solar container

Solar

## Overview

---

A "pulled solar plexus" most likely refers to either a pulled diaphragm or a pulled abdominal muscle, a low-grade, partial tear to the muscle fibers, usually caused by overstretching. Physically, it is known as the Celiac Plexus, a dense network of nerves controlling many involuntary bodily functions. The solar plexus, which is also called the celiac plexus, is made up of several nerve fibers that radiate out from the center of your abdominal area. The belly contents are: Spleen, gallbladder, stomach, small intestine, colon and kidneys.

## Does muscle also count as solar container
