

Does new solar container need to be registered

Overview

Some states require a dedicated solar contractor license, while others allow solar installations under an electrical or general contractor license. If you want to install solar panels, obtaining the proper solar permits is an essential step to ensure your energy system can operate safely, legally, and at no risk to your roof, home, or those living on site. A solar permit is a document issued by local municipalities allowing individuals or businesses to install solar panels and PV systems.

Does new solar container need to be registered
