

Electric solar container hot air blower

Overview

Our Solar RoofBlasters vents for Conex Containers bring in fresh, cooler air and expel the hot air allowing air to circulate throughout the container anytime the sun is shining. The fresh air will also help remove odors, gas fumes, etc from smelling up the container. This solar roof vent runs on the sun's power which eliminates your need for electricity and helps you reduce your energy use and carbon impact. CONTENTS INCLUDE: The Solar RoofBlaster Fan (patent-pending) comes pre-installed on an 8" metal can roof vent with flashing that has been designed to fit a Conex container's ribs that measure 3. Quiet operation, fully assembled - No On or Off switch! In most jurisdictions, low-voltage (12V) fans can be used.
