

# Electrical mobile solar container for private courtyards

## Overview

---

It integrates advanced photovoltaic modules, inverters, and electrical cabinets into a compact and functional unit. Thanks to foldable solar arrays, the container is rapidly deployable — operating within hours to support power needs across diverse scenarios. Unlike standard solar panel containers, LZY's mobile unit features a retractable solar panel. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. Ideal for temporary power, remote locations, or emergency backup, these all-in-one solutions combine high-efficiency solar generation with.
