

Electricity storage loans

Overview

Eligible customers who install storage and solar systems through the program can benefit from lower energy bills, backup power during outages, and provide enhanced support for grid reliability. SAN FRANCISCO – The California Public Utilities Commission (CPUC) is launching a new \$280 million statewide initiative to help California’s low-income utility customers install battery storage and solar panel systems. Use this tool to learn whether your electricity was shut off during a Public Safety Power Shutoff (PSPS). [Check Eligibility](#) [Why should I install a home energy storage system?](#)

Installing an energy storage system can help you prepare for a PSPS or other outage types. The Department of Energy (DOE) Loan Programs Office (LPO) is working to support deployment of energy storage solutions in the United States to facilitate the transition to.
