

Electrochemical solar containerlight solar container

**200kWh
Battery Cluster**

Overview

From portable units to large-scale structures, these self-contained systems offer customizable solutions for generating and storing solar power. This basic entry level solar power system will provide lighting for a single shipping container. Get Price While increasing the power generation power, this module maximizes container transportation efficiency through innovative layout design, significantly reduces logistics costs, and injects new vitality into the overall economic improvement of. Prewired turn-key kits with Bluetooth technology for smartphone viewing of system data are easy to. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design.
