

# Enterprise solar container system integrity service program

## Overview

---

It is the first multi-stakeholder initiative specifically designed for the solar PV sector that combines robust ESG and traceability standards, international best practices, third-party verification and broad stakeholder engagement. The Enterprise Solar Storage Project, as proposed by Enterprise Solar Storage, LLC, is for the construction and operation of a photovoltaic (PV) solar facility and associated infrastructure necessary to generate 600 megawatts (MW) of renewable electrical energy with up to 4,000 megawatt-hours (MWh). With integrated software, services and hardware, and the data reporting to help you see your ESG progress. APEX Accelerators are an official government contracting resource for small businesses. [Click Here to Experience the Automated Line in Pittsburgh, PA!](#) Eos is accelerating the shift to American energy independence with zinc-powered energy storage solutions.
