

Finland solar container industrial park factory operation information

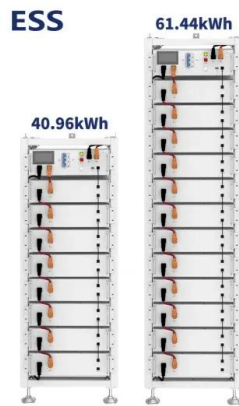

Overview

This fall Finnish energy company, EPV Energy Ltd, will take its first industrial-scale solar park into production in Heinineva, Lapua. ABB has joined the project as a key technology provider, delivering automation and control systems that ensure efficient energy production and monitoring. In a significant move to advance renewable energy in the Nordic region, Suvic and Alight have expanded their collaboration by signing a landmark Engineering, Procurement, and Construction (EPC) contract for a new 100 MWp solar park in Finland. Is your company looking to set up an industrial operation in Europe?

With its abundant supply of clean and affordable energy, Finland is preparing plug-and-play super sites to power your business.

Finland solar container industrial park factory operation information
