

Gs certification speed of solar container equipment

Overview

The GS certification process has more steps than assembling IKEA furniture, but here's the cheat sheet: Total time?

6-8 months. Gs certification qualification container inve 524,EN 50530,UL 1741,IEC 61683,IEC 62109-1,and IEC 62109-2. When you're about to roll out containerized solar systems--for a Haitian humanitarian mission or a telecom project in Namibia--you'll soon have to answer a crucial question: what certifications should solar containers have to ensure safety, performance, and compliance with regulations?

Solar. Maximum solar yield power generated annually with 400 kWh per day as average energy output. The GS mark provides this assurance and SGS, as a notified body for GS Mark testing and certification can help you gain a competitive edge in a congested market. It signifies their compliance with all the statutory requirements of the German Product Safety Act.
