## Overview

---

Guojin Securities: In H1 2025, the photovoltaic industry will experience growth in volume but a decrease in profit, with demand remaining robust due to installation rush. Growth is driven by the rising adoption of off-grid and hybrid power solutions, especially in remote, disaster-prone, and developing. Guojin Securities research report pointed out that domestic electrolytic aluminum capacity is about to peak, and trading opportunities under seasonal supply and demand mismatch should be focused on. The growth in consumption in emerging sectors such as photovoltaics and new energy vehicles will.
