

# Home solar container project materials list

## Overview

---

DIY solar projects involve assembling essential materials like solar panels, charge controllers, inverters, batteries, and wiring. I focus on key components and practical approaches to help you begin your journey toward solar independence. Join us as we take a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container! Hi there, we're Jonathan & Ashley from Tiny Shiny Home. Below you can download our PDF file that contains a complete break down of the materials used to build our 20' by 24' solar powered off grid cabin. Therefore, you need to ask yourself: do I want to spend months building, or move in within weeks?

Building an off grid.
