

# Honiara solar container work plant operation

## Lithium Solar Generator: \$150

## Overview

---

Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. That's Honiara, the capital of Solomon Islands, until the 15 MW Honiara Solar Power Station began operations in 2023. As the nation's first utility-scale solar power facility, it signifies a pivotal shift away from a near-total reliance on imported fossil fuels and aligns the country with the global transition toward renewable energy. Replacing imported diesel with solar energy addresses both pressing economic and. 20FT can hold around 1000kwh battery, inverter combiner box or PCS, 40FT can hold 1800kwh~3000kwh battery and other equipment.
