

# Hydrogen gas storage station

## Overview

---

Our interactive map shows real-time data on the locations of hydrogen stations, ensuring that you can find the nearest refuelling point with ease. [ease.org](http://ease.org) for a fuel station map 01/17/2026 7:45 PM: This station is currently out of service due to mechanical issues and is still. Hydrogen refueling station counts are updated quarterly by the California Energy Commission staff administering the Clean Transportation Program funding for these stations. The Cal State LA Hydrogen Research and Fueling Facility (H2 Station) was formally opened on May 7, 2014. Hydrogen stations are in operation and under construction for light-duty vehicles (passenger vehicles), heavy-duty vehicles (trucks and buses), and material handling equipment.

### Cal State LA Hydrogen Research and Fueling Facility (H2 Station)

As the largest university-located hydrogen fueling facility in the nation, commissioning continues, and the facility is available to Fuel Cell Electric Vehicles (FCEVs). The station is capable of producing ...

### Hydrogen Fueling Station Locations

Use this tool to view alternative fuel corridors designated by the Federal Highway Administration and to measure the distance between stations that meet the Round 8 criteria for corridors.

### Alternative Fuels Data Center: Hydrogen Fueling Station Locations

Hydrogen Fueling Station Locations Find hydrogen fueling stations in the United States and Canada. For Canadian stations in French, see Natural Resources Canada.

### Stations , Hydrogen Fuel Cell Partnership

Hydrogen is dispensed as a compressed gas. Most passenger vehicles use H70--compressed to 70 mPa--and larger vehicles use H35 (35 mPa). The station is a closed-loop system that meets ...

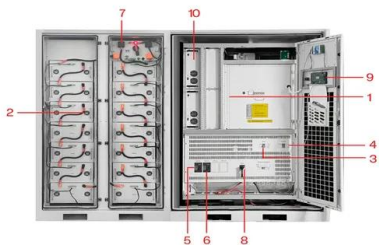

## HYDROGEN STATIONS

At hydrogen stations with liquid storage, a tanker truck pumps hydrogen into an above-ground tank where it's held at a cryogenic temperature. Liquid hydrogen is vaporized, compressed, and stored in ...

## Gas-fired power plant

Gas-fired power plant A natural gas plant in Canada Gas generates over 20% of world electricity Share of electricity production from gas A gas-fired power plant, sometimes referred to as gas-fired power ...

## France Compressed Hydrogen Gas Storage Market Size, Drivers, ...

The France compressed hydrogen gas storage market has experienced steady expansion over the past decade, with an estimated market size of approximately USD 250 million in the base year.

## Alternative Fuels Data Center: Hydrogen Fueling Stations

As the market expands, hydrogen fueling stations will be matched with vehicle rollout as both grow together. Customers are expected to have similar experiences at hydrogen fueling stations as at ...

## What are hydrogen stations and how do they work?

Green hydrogen is one of the great alternatives in terms of sustainable mobility, and for this hydrogen stations, or hydrogen pumps, which function as a refuelling station for this fuel, are necessary. The ...

## Hydrogen Refueling Stations in 2025: Complete US Station Map

Only 52 hydrogen stations remain in the US. Get current information about station availability, reliability challenges, Shell's exit, and the reality for hydrogen vehicle owners.
