

# Inverter-free solar container system

## Overview

---

This is a detailed walk-through of the planning and installation of our 3kW - 5kWH - 120V off-grid solar system that powers a rehabbed shipping container. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. For instance, specialized units like the LZY-MS1 Sliding Mobile Solar Container pack fold-out solar panels, inverters and batteries into a 20-foot steel box. Deployed in under an hour, these can deliver anywhere from 20-200 kW of PV and include 100-500 kWh of battery storage.
