

Jincheng solar container technology factory operation information

Overview

We produced one 20ft mobile solar container configured for on-grid operation and factory-tested it before shipment. Manufacturing lead time was 40 days; transport to the customer site took 35 days. Jinchen is one of the world's leaders in the field of high-efficiency solar cell and high-efficiency solar module manufacturing equipment, and a strong practitioner on implementing China's national dual carbon goals, "carbon peak" and "carbon neutral". Chained static coating design / adjustable spacing of coating process / flexible adjustment of coating sequence Large capacity design, based on 210 half wafer 13000 wafers/hour or more capacity, compatible with 156-210 wafers, lower cost. Jinchen (Shanghai stock code: 603396) is a state-level high-tech enterprise in China focusing on the innovation of vacuum coating technology, automation technology, and equipment intelligent solutions. Jinchen's high-end intelligent equipment is widely used in renewable energy and new material. Provide first line engineering support for the day-to-day operations of the Invenergy utility-scale solar fleet Collaborate with cross functional groups to resolve issues on site (Control Center, SCADA, on a?

| 65,000 electric buses deployed worldwide. Waaree, the largest PV module manufacturer in India, officially signed a 10GW high-efficiency module automation production line project with Jinchen, during the SNEC PV Power Expo 2023 recently held in Shanghai.

Jincheng solar container technology factory operation information

Jintan Jincheng Science and Technology Industrial Park

Located in the north of Jintan District, in the south Jiangsu province in the central area of Suzhou-Wuxi-Changzhou, Jincheng Science and Technology Industrial Park (Jincheng Town) covers an area of ...
