

Latest indian solar container policies and regulations

Overview

The Central Pollution Control Board (CPCB) has released draft guidelines on June 4, 2025 for the safe storage, handling and transportation of discarded solar photovoltaic (PV) modules, panels and cells. This marks a crucial step in India's plan to manage the growing volume of solar waste, as the. India updates solar PV regulations under the 2025 Quality Control Order, mandating stricter BIS standards in the renewable energy sector. The Ministry of New and Renewable Energy announced on Wednesday sweeping revisions to India's quality standards for solar photovoltaic products, reinforcing its. The Indian government has tightened quality standards for solar PV modules, inverters, and storage batteries—boosting local manufacturing, challenging Chinese imports, and accelerating India's transition to green energy. India's solar energy sector is undergoing transformative policy shifts in 2025, reinforcing the government's commitment to achieving 500 GW of non-fossil fuel capacity by 2030.
