

Low-voltage solar container vehicle

Overview

LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar arrays, reducing reliance on diesel fuel by 80% and are ideal for mining, factory production and off-grid. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar. LZY offers large, compact, transportable, and rapidly deployable solar storage containers for reliable energy anywhere. The core advantage of the PV-STORAGE-GENSET Hybrid system lies in its "intelligent integration" and "dynamic optimization".
