

New materials plus solar container

Overview

Mobile Solar container is designed to be more convenient, requires fewer labour hours to install, is easily transportable, and is more energy efficient. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar.

New materials plus solar container

Solar water disinfection (SODIS) of Escherichia coli, Enterococcus spp

The use of alternative container materials and added oxidants accelerated the inactivation of MS2 coliphage and Escherichia coli and Enterococcus spp. bacteria during solar water disinfection ...

New solar material pushes efficiency past the "theoretical" limit

Solar power has long been constrained by a supposedly unbreakable ceiling on how much sunlight a panel can turn into electricity. That barrier is now cracking as a new class of solar materials

Solar Without Panels, Storage Without Batteries

California's new solar panels do MORE than generate power The Energy Storage Problem No One Explained Properly This Startup Just SOLVED the Hardest Problem in Clean Energy
