Overview

Scatec's Release initiative, known for its adaptable solar panel and battery solutions, commenced operations in Cameroon with the completion of solar plants in Maroua and Guider in September 2023. From innovative battery technologies to intelligent energy management systems, these solutions are transforming. The China EXIM Bank recently approved \$300 million for solar+storage initiatives, while the African Development Bank's Desert-to-Power program targets 10,000MW of solar capacity across the Sahel region—Cameroon included. Major projects now deploy clusters of 20+ containers creating storage farms with 100+MWh capacity at costs below \$280/kWh. We've just decided to support six new solar energy projects in Cameroon, Malawi, Nigeria, Pakistan, and Togo.
