

Permanent magnet circuit breaker solar container capacitor

Overview

Using a flux-shifting device with integral permanent magnets, the AMVAC mechanism has just seven moving parts. Having only an open/close actuator, an electronic controller, and capacitors for energy storage, the AMVAC circuit breaker actuator is capable of 50,000 to 100,000. AMVAC circuit breakers have been fully tested to the most recent versions of ANSI C37. SRIWIN ELECTRIC, an ISO 9001-2015 certified company, offers a unique, space-saving, permanent magnetic actuator operated, outdoor, Pole/Structure mounted, three-pole, gang-operated Vacuum Circuit Breakers, that are a perfect replacement for conventional Porcelain-clad Circuit Breakers. Longest Life of ANY Distribution Capacitor Switch with 30,000 Maintenance-Free Operations! The Rockwill's new generation RCS capacitor switch is a long mechanical life design vacuum switch that provides an operational life of over 100,000 (30,000open/close) maintenance-free operations. Eaton offers the industry's most complete and reliable circuit protection for PV balance of system, from fuses, fuse holders and circuit breakers to safety switches and surge protection—allowing for comprehensive overcurrent and overvoltage protection anywhere in the PV system.
