

Power storage patent transfer agreement

Overview

This page is useful if you are looking for examples of specific agreements (e. Please note that these agreements are exemplary; a sample agreement included here may not. Regarding the energy storage patent field, although there are a large number of energy storage cooperative patents in China, the patent transfer rate is low. ContractsCounsel has assisted 29 clients with patent transfer agreements and maintains a network of 49 business lawyers available daily. These lawyers collectively have 7 reviews to help you choose the best lawyer for your needs. Hence, in effect these apparatus, systems, and methods may provide for storing electric power from the grid and then subsequently delivering it. THIS PATENT TRANSFER AGREEMENT is made and entered into this 16th day of August 2004 (this " Agreement "), by and between HARRIS CORPORATION, a corporation organized under the laws of the State of Delaware, (" Harris "), and TELTRONICS, INC. Just last month, the International Energy Agency reported that patent licensing deals in this sector jumped 25% year-over-year, yet actual product deployments barely.
