

Rosso solar container supercapacitor manufacturer

Overview

based in the United Arab Emirates, with over 10 years of manufacturing experience. Our graphene comes from recycled sources, and our storage units are almost entirely recyclable. Researchers at Oak Ridge National Laboratory have designed a supercapacitor material using machine learning, storing four times more energy than current commercial materials. Musashi's Hybrid SuperCapacitor (HSCs) products deliver unparalleled high-power density energy storage to meet the diverse needs of an electrified world with flexible configurations. This revolutionary energy storage device is rated for 20,000 cycles (that's 1 cycle per day for 54 years), and has 15 KWh of energy storage.
