

Solar container anti-dumping

Overview

The countervailing and anti-dumping duties are in addition to existing section 201 solar tariffs that are currently 14%, but are scheduled to end on February 6, 2026, and to "reciprocal" tariffs that took effect on April 5, 2025 at a 10% rate and are scheduled to increase to 46%. Trade Commission must act quickly to ensure tariff rulings are in place before a temporary gap creates an opportunity for solar components to be imported duty-free. Department of Commerce (Commerce) announced its final affirmative determinations in the antidumping duty (AD) and countervailing duty (CVD) investigations of crystalline photovoltaic cells (solar panel cells) from Cambodia, Malaysia, Thailand, and the Socialist Republic of Vietnam. imports of crystalline silicon photovoltaic cells, whether or not assembled into modules (solar cells and modules), 2 from.
