Storage container that will be used for minimal dwelling needing solar

I am trying to build a solar powered container unit of 8x8x16 that will be temperature and probably humidity controlled for interior temps above 80 degrees and humidity above 30%.

Full size storage container for permanent install of solar/battery

A shipping container on site isn't a huge issue from an aesthetics standpoint. Issues I could possibly see are yearly below freezing and the 100+ temps that the area sees, so a battery box ...
