

# Solar container booth design plan

IP65/IP55 OUTDOOR CABINET

ALUMINUM

OUTDOOR ENERGY STORAGE CABINET

OUTDOOR EQUIPMENT CABINET

## Overview

---

Provide an architectural drawing and riser diagram for the homeowner showing the planned location for future photovoltaic and solar hot water system components. Make the next step towards renewable energy with our Solarcontainer! The challenges of our time are more present than ever. The purpose of designing and building a multi-purpose portable energy booth is to educate, empower, and promote the culture of using renewable energy among citizens and secondly to provide welfare and support services on special days and occasions. The Solarcontainer is a photovoltaic power plant that was specially developed as a mobile power generator with collapsible PV modules as a mobile solar system, a grid-independent solution represents. Panel Built's solar powered booths offer a secure, prefabricated solution for locations without easy access to electrical infrastructure.
