

Solar container box size customization

Overview

Customize your container according to various configurations, power outputs, and storage capacity according to your needs. The most common and innovative application is installing solar panels on shipping containers. That is why we have developed a mobile photovoltaic system with the aim of achieving maximum use of solar energy while at the same time being compact in design, easy to transport and quick to set up. From system design to factory testing, we size and deliver SolaraBox Mobile Solar Containers that meet site needs reliably and on schedule.

Solar container box size customization

SolaraBox Solar Containers , Products & Configurations

Our core team brings 15+ years in renewables and container manufacturing. From system design to factory testing, we size and deliver SolaraBox Mobile Solar Containers that meet site needs reliably ...
