

Solar container certification training

Overview

This online course will familiarize you with the steps and considerations necessary before and during a solar installation project. Develop top solar skills through the industry's most respected and rigorous certificate program. The Solar Training Network addresses a critical need for high-quality, local, accessible training in solar installation and related skills. It was established under the Solar Training and Education for Professionals (STEP) funding program in 2016 and is administered by The Solar Foundation. NYCETC's Member Spotlight series introduces readers to the wide variety of workforce programs and services that Coalition members offer across the five boroughs, and explores how programming has adapted to the current needs of talent and industry in New York City.
