

Solar container fans are relatively cheap

Overview

Solar-powered fans are cost-effective and easy to install, making them ideal for temporary event spaces where power is not accessible. They help in creating a more sustainable event environment and align with green initiatives. □2688r/min Dual Fans + 90° Solar Panel□Solar-powered vent fan with 2 high-speed fans (2688rpm) pulls 600CFM airflow—3X faster than passive vents. Adjustable solar panel maximizes energy absorption, running 24/7 (12h after sunset) for zero electricity costs □90% Condensation Reduction & 20°C. Keep your container cool, dry, and mold-free with our specialized solar-powered vent, engineered to fit perfectly on the corrugated roof of standard shipping containers.

Solar container fans are relatively cheap
