

# Solar container industry development is temporarily suspended

## Overview

---

The move follows a 60-day suspension of all renewable energy authorisations, including leases and rights of way, under President Donald Trump's administration. of the Interior's Bureau of Land Management (BLM) has canceled an environmental impact review of Esmeralda 7, a proposed 6. The Trump administration's cancellation of what would have been one of the world's largest solar power projects has some industry observers fretting over the future of renewable energy on public lands. This story is part of MIT Technology Review's "America Undone" series, examining how the foundations of US success in science and innovation are currently under threat. The US PV market is undergoing major policy changes, with the most significant shift stemming from the anti-dumping and countervailing duties (AD/CVD) on PV modules and cells from Southeast Asia, which are reshaping the non-China PV supply chain.
