

# Solar container materials engineering ranked first

## Overview

---

UCSB's materials program tied for first among public universities and third overall out of 118 public and private institutions, climbing one spot among public universities and two slots overall compared to 2024. Each school's score reflects its average rating on a scale from 1 (marginal) to 5 (outstanding), based on a survey of academics at peer institutions. Read the methodology » For full rankings, GRE scores and student debt data, sign up for. This means you won't have too much trouble finding schools that offer the degree. College Factual looked at 64 colleges and universities when compiling its 2025 Best Materials Engineering Schools ranking. The 5 disciplines ranked A+ include architecture, civil engineering, transportation engineering, biomedical engineering, and artistic theory. Materials engineering colleges are located in California (15 schools), Michigan (11 schools), Texas (10 schools), Ohio (9 schools), Washington (9 schools), New York (8 schools) and 38 other states.
