

Solar container photovoltaic engineering installation company

Overview

A nationally licensed solar engineering firm, we help commercial and institutional organizations plan and execute advanced photovoltaic (PV) systems. Our expertise is in precision design backed by regulatory expertise and field experience with utility-scale and high-demand. KMB Design Group is at the forefront of the escalating solar industry, and is considered a leading consulting firm in the renewable energy field providing photovoltaic design and engineering services. Licensed in 50 states, we have the ability to work nationally without limitations. Our deep understanding of solar panel engineering ensures that every system is ideally. LZY mobile solar systems integrate foldable, high-efficiency panels into standard shipping containers to generate electricity through rapid deployment generating 20-200 kWp solar.
