

# Solar container power station construction knowledge training

## Overview

---

An interactive quiz follows each lesson for review and comprehension verification. The Solar Training Network addresses a critical need for high-quality, local, accessible training in solar installation and related skills. It was established under the Solar Training and Education for Professionals (STEP) funding program in 2016 and is administered by The Solar Foundation. An in-depth course focusing on everything you need to know about the development, design, permitting, construction & commissioning of utility-scale solar power plants! By the end of this course - you'll have a detailed understanding of what goes into each of these key steps - and have a working. Our online campus delivers expert-led training that fits your schedule - whether you're starting fresh, advancing your career, or adding solar skills to your trade.
