Overview

Regularly scheduled maintenance costs: Most professionals recommend annual inspections and cleaning, averaging \$150 - \$300 per visit. Unexpected repairs: Covered under most warranties, but minor out-of-pocket repairs may cost around \$100 - \$200. Department of Energy Office of Energy Efficiency & Renewable Energy Operated by the Alliance for Sustainable Energy, LLC This report is available at no cost from the National Renewable Energy Laboratory (NREL) at Contract No. As utility-scale solar and battery energy storage systems (BESS) continue to proliferate across the energy landscape, establishing a robust, standardized O&M program has become essential. 02 cents per watt per year, but for the megawatt, the O&M Cost estimation can go up to \$20,000 to \$25,000 per year for above 50 MW large capacity PV power station. 8 shows the evolution of maintenance strategies over time, along with examples of maintenance. For optimizing the balance between reducing operations and maintenance (O&M) cost and improving performance of photovoltaic (PV) systems, NLR collects data, models performance and costs, and provides expertise to industry.
