

# Solar container product polishing

PUSUNG-R (Fit for 19 inch cabinet)

## Overview

---

Polishing a solar panel requires the right product and the right technique. Electropolished surfaces are the standard for high purity and corrosive semiconductor and solar applications. The Mobile Solar PV Container is a portable, containerized solar power system designed for easy transportation and deployment. Features High-capacity equipment, capable of processing 6 baskets at a time; Distributed coil & V type runner plate forms a high-efficiency liquid. Product Name: Mono-Si Alkaline Polishing Equipment Function: Polishing treatment applied to the surface of silicon wafers Process Flow: Pre-cleaning→Polishing→Post-cleaning→Pickling→Pre-dehydration→Drying Features: Supports MES, RFID, and optional online weighing functions; one-key online washing. ROOF GREENS FROM THE MARKET LEADER For 50 years - YOUR specialist for roof gardens Climate change.
