

Solar container pumping equipment manufacturing company

Overview

For decades, we've been helping farmers, ranchers, and off-grid communities keep the water flowing with solar-powered pumping solutions built for the toughest conditions. Our DESIGN PHILOSOPHY from the beginning has been to incorporate the most common features desired in wastewater evaporator and parts washers and incorporate them as standard features on all of our equipment. For example, all our parts washers have fully insulated wash cabinets, an adjustable oil. RPS supplies the shipping container, solar, inverter, GEL or LiFePo battery bank, panel mounting, fully framed windows, insulation, door, exterior + interior paint, flooring, overhead lighting, mini-split + more customizations! RPS can customize the Barebones and Move-In Ready options to any design. Solar Panels for Photovoltaic Water Pumping Systems: What, Why, and How Solar panels for photovoltaic water pumping systems are waves-making—in the water. is a prominent player in the solar container market, specializing in advanced containerized solar power and hybrid energy solutions.
