

Solar container tank Ing

Overview

These reliable, low-maintenance containers come in a variety of working pressures, carry up to 43,000lbs (19,500kg) (gross) and are currently offered in either 20 or 40-foot lengths. All containers comply with important codes and standards including ASME/DOT, RID, IMDG, ADR, ISO, and. Natural gas is commonly transported and delivered in bulk to end-users by pipeline or large scale liquefied natural gas (LNG) tankers, but these methods may not be feasible for smaller markets. For more than 60 years, CB&I Storage Solutions has focused on delivering LNG storage solutions safely, on time and with the highest quality standards. LNG iso tank container constitute one type of CIMC ENRIC 's standardized, modularized and light-weight transport equipment, and having inherited the feature of transport convenience of containers and integrated the profound storage and transport-related technologies of CIMC ENRIC, they can be used. 5,000 or 10,000 gallon tanks are available and can be shipped via container ship or truck.
