

# **Sudan s new solar container industry base**

## Overview

---

Ezra Group, a South Sudan family-run conglomerate, on Monday announced the launch of a 20-MW solar power plant with a 14-MWh battery energy storage system in South Sudan, marking the country's first major renewable energy project. That's the reality modern energy storage boxes are creating across Sudan, where 72% of businesses report productivity losses from power outages according to 2023 World Bank data. Solar Energy Maximization "Our 50kW solar farm used to waste 30% excess energy," says Ahmed Hassan, Port Sudan. Despite this natural advantage, the national electrification rate is only 33%, leaving roughly two-thirds of its 45 million people and a significant. Pre-fabricated containerized solutions now account for approximately 35% of all new utility-scale storage deployments worldwide. The study highlights the critical need for energy infrastructure rebuilding, the emergence key player in Sudan's energy sector and potentially a regional distribution hub.
