

Overview

The commercial and industrial (C & I) system integrates core parts such as the battery units, PCS, fire extinguishing system, temperature control systems, and EMS systems. The containerized configuration is a single container with a power conversion system, switchgear, racks of batteries, HV C units and all associated fire and safety equipment inside. such as small-scale monitoring : power module, and energy management battery, refrigeration, in one. AZE's all-in-one IP55 outdoor battery cabinet system with DC48V/1500W air conditioner is a compact and flexible ESS based on the characteristics of small C&I loads.
