

The capital of the future world solar container capital

Overview

As Indonesia's capital physically continues to sink, authorities are embracing a passion project: building a new capital. This surge is driven by a growing need for portable off-grid power in remote and disaster-affected areas, as well as supportive government incentives for. Enrique Razon, the chairman and CEO of the Philippines' leading ports operator International Container Terminal Services Inc. (ICTSI), plans to put up what could be the world's largest solar farm in the a?

| The solar container can be used for short-term use at events, for longer use, for example.
