ENERGY STORAGE SYSTEM

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled

The image shows a tall, grey Energy Storage System (ESS) unit with a black top and bottom. It features two vertical green lines running down the center. A central door is visible with a handle and a lock. The letters 'ESS' are printed in green on the upper right side of the unit. At the bottom, there are two yellow warning triangles with exclamation marks inside, indicating high voltage or other safety hazards.

Overview

Last week, São Tomé and Príncipe (STP) officially joined AMP and hosted a two-day project launch workshop, becoming one of the newest national projects under active implementation. Although around 70% of rural areas in STP are electrified, many communities remain. This is the most comprehensive and updated report on the status of renewable energy and energy efficiency in São Tomé and Príncipe, allowing an overview of current and Progress on target 8.
